President Schlissel’s Charge to the U-M Community for a Strategic Planning Process on Diversity, Equity and Inclusion

Mission

At the University of Michigan, our dedication to academic excellence for the public good is inseparable from our commitment to diversity, equity, and inclusion. It is central to our mission as an educational institution to ensure that each member of our community has full opportunity to thrive in our environment, for we believe that diversity is key to individual flourishing, educational excellence and the advancement of knowledge.

Background

From being one of the first universities to admit women in 1870 to our historic defense of race conscious admission policies at the U.S. Supreme Court in 2003, the University of Michigan has had a fierce and longstanding commitment to diversity, equity and inclusion. This commitment rests upon our recognition of the history in the United States of racial, ethnic, and gender discrimination as well as our understanding that our progress as an institution of higher learning will be enhanced with a vibrant community of people from many backgrounds.

Plan Goals

Diversity: We commit to increasing diversity, which is expressed in myriad forms, including race and ethnicity, gender and gender identity, sexual orientation, socio-economic status, language, culture, national origin, religious commitments, age, (dis)ability status, and political perspective.

Equity: We commit to working actively to challenge and respond to bias, harassment, and discrimination. We are committed to a policy of equal opportunity for all persons and do not discriminate on the basis of race, color, national origin, age, marital status, sex, sexual orientation, gender identity, gender expression, disability, religion, height, weight, or veteran status.

Inclusion: We commit to pursuing deliberate efforts to ensure that our campus is a place where differences are welcomed, different perspectives are respectfully heard and where every individual feels a sense of belonging and inclusion. We know that by building a critical mass of diverse groups on campus and creating a vibrant climate of inclusiveness, we can more effectively leverage the resources of diversity to advance our collective capabilities.
**Specific Charge**

To further promote our mission and values regarding diversity, equity and inclusion, the University will engage in strategic planning. Each school, college or unit is responsible for overseeing a high-quality engaging planning process that results in a five-year plan for diversity, equity and inclusion covering all of the key constituents (e.g. students, staff, faculty, alumni, patients) in their school, college or unit.

These plans should be:

1. highly aspirational and consistent with the leading role U-M has played in matters of diversity throughout its history;
2. concrete and supported by a series of specific measurable goals; and
3. consistent with the wide variety of research, educational, and public engagement activities that occur throughout the University.

**Planning Domains**

In addition to covering all of the key constituents in a school, college or unit, each plan should describe activities in the following domains:

- Recruitment, Retention and Development
- Education and Scholarship
- Promoting an Equitable, Inclusive Environment
- Service (as applicable to service units)

**Values**

- We must act with deliberateness and humility as we seek to respect and leverage diversity, ensure equity, and promote inclusion.
- We must examine and learn from the outcomes of our past efforts and work to improve them.
- We must act on our commitment, in accordance with the law, to contribute to a just society and to affirm the humanity of all persons.

**Planning Process Objectives**

The objectives of the School/College/Unit (S/C/U) Strategic Planning Process are the following:

1. Develop an **engaged process that generates a collective commitment** from the constituents of their school, college or unit.
2. Conduct and provide a comprehensive evaluation of where they are as a unit with respect to:
(a) how diverse they are as a community;
(b) the degree to which individuals experience the University as inclusive; and
(c) whether individuals have equitable opportunities to be successful.

3. Within the constraints of the law, propose specific, achievable and sustainable short- medium- and long-term goals and actions to enhance diversity, equity and inclusion with specific timetables for execution.

4. Identify resources and points of accountability for achieving the designated goals.

5. Identify steps to ensure that the plan they develop is regularly reviewed and updated to reflect both progress towards their goals and any newly identified opportunities and challenges.
